ABOUT ME

I am a skilled Mobile Developer specializing in React Native with solid programming principles. With extensive experience in mobile app development, I excel in integrating RESTful APIs and creating user-friendly, visually appealing interfaces. Motivated to continually learn and grow, I strive to deliver high-quality and innovative mobile solutions.

Mobile Developer, Rumah IT | December 2022 - Present.

- Developed and maintained high-quality React Native applications, focusing on optimizing performance and user experience.
- Successfully developed 3 to 4 applications per month, meeting client specifications and deadlines.
- Integrated RESTful APIs to efficiently fetch and manipulate data within applications, ensuring seamless data flow and interaction.
- Collaborated with UI/UX designers to implement intuitive and user-friendly mobile interfaces, enhancing overall user satisfaction.
- Debugged and troubleshooted issues in React Native applications, ensuring code quality and reliability through rigorous unit testing.
- Analyzed and debugged complex problems, architecting effective solutions while maintaining a strong understanding of computer fundamentals, including algorithms, data structures, and design patterns.

ORGANIZATION EXPERIENCE

BEM(Badan exsekutif mahasantri), Pondok IT | December 2022 - May 2023.

- Directing, guiding students, and maintaining the boarding school facilities, with all my heart
- create monthly RAB and targets, and report damaged equipment.

EDUCATION

MIPA -

MIPA, Pondok Pesantren Ibnul Qoyyim Putra | january 2016 – May 2024

- Ilmu Pengetahuan Alam
